PROFILE SUMMARY

Passionate Computer Science student with a strong foundation in coding, problem-solving, and innovation. Proven success in hackathons, solving 100+ LeetCode problems, and participating in coding competitions, showcasing creativity and teamwork. Outside academics, I create engaging YouTube videos. Seeking an internship/full-time position to apply my knowledge and skills in real-world projects.

SKILL

Programming Languages:	Web Development:	Database Management:	Frameworks/Tools:
<ul style="list-style-type: none">• C• JAVA• Python	<ul style="list-style-type: none">• HTML• CSS• JavaScript	<ul style="list-style-type: none">• Mysql	<ul style="list-style-type: none">• Bootstrap• Flutter• jQuery• PHP

PROFESSIONAL EXPERIENCE

Data Science And Machine Learning Intern

May 2024

UniConverge Technologies Pvt Ltd

- Worked on the project Prediction of Agriculture Crop Production in India, applying data science and machine learning techniques to develop predictive models.
- Collaborated with team members, exchanged ideas, and contributed expertise to achieve project goals.

PROJECTS

VAULTVIEW –EXPENSE TRACKER WEB APPLICATION

React.js | Node.js | Sequelize | MySQL | OpenAI API

Developed a full-stack expense tracking web application with integrated AI features to enhance user experience. Users can register, log in, and manage categorized expenses with monthly summaries and real-time visualizations. The system includes an AI assistant to provide spending insights, generate budget suggestions, and offer financial tips, creating a smart and user-friendly budgeting tool.

HOTEL WEBSITE

HTML | CSS | javascript | jquery | php | Bootstrap

The Hotel Website Development project focuses on creating a dynamic and visually appealing website using HTML, CSS, JavaScript, jQuery, PHP, and Bootstrap. The aim is to deliver an interactive and user-friendly platform for users to explore, and manage hotel reservations seamlessly
